The columns of official intelligence will be always full and accurate, and will be brought up to the very day of going to press. The Departments at Washington have offered every facility for the fulfillment of this promise.

The Editor's 'Special Department' will present, from month to month, a Sketch of the Progress of the War; a clear statement of our Foreign and International Relations, and such varied Colloquy with Readers and Correspondents as will keep the Journal *en rapport* with its Patrons. Extracts from Army Letters and Translations from Foreign Military and Naval Magazines will also appear in this Department.

The following are a few of the many flattering testimonials from distinguished officers and citizens:

Lieut.-Gen. SCOTT says:

"I have read, and shall continue to read, with great pleasure, the *United States Service Magazine*, edited by my friend Prof. COPPEE, whom I regard as one of the most accomplished officers of the army.

Such a Magazine cannot fail to be of the greatest interest to the Army and Navy, and to the public generally."

Lieut.-Gen. GRANT says:

"Such a magazine is much needed, and is deserving of the most liberal patronage. Every facility will be given for its circulation in this military division."

Maj.-Gen. MEADE says:

"I have read with great satisfaction the first number of the *Magazine*, and shall be very glad to contribute to its success in any way in my power."

Rear-Admiral DUPONT says:

"I feel interested and gratified that such a work should be ushered under your auspices, and shall take pleasure in giving it any aid in my power."

HENRY W. LONGFELLOW says:

"Your new magazine, I have no doubt, will be very successful, not only in the army and navy, but among civilians, for every one is deeply interested in this holy war and modern crusade against barbarism."

From the N. Y. Times.

No Magazine in the country appeals more powerfully for general support than the *United States Service*, or appears with greater claims to deserve it.

From the Philadelphia Inquirer.

To the people as well as the army and navy, this Magazine will be a welcome visitor. Prof. COPPEE, of this city, is the editor, a sufficient guarantee of its excellence and success.

WASHINGTON, March 15, 1864.

ADDITIONAL DRAFT OF TWO HUNDRED THOUSAND MEN.

The following is an order by the President of the United States:

EXECUTIVE MANSION,
WASHINGTON, March 14, 1864.

GENERAL ORDERS No. 100.—In order to supply the force required to be drafted for the navy, and to provide an adequate reserve force for all contingencies, in addition to the five hundred thousand men called for Feb. 1, 1864, the call is hereby made and a draft ordered for two hundred thousand men for the military service, army, navy and marine corps, of the United States.

The proportional quotas for the different wards, towns, townships, precincts or election districts or counties will be made known through the Provost-Marshal-General's Bureau, and account will be taken of the credits and deficiencies of former quotas.

The 15th day of April, 1864, is designated as the time up to which the numbers required from each ward of a city, town, &c., may be raised by voluntary enlistment, and drafts will be made in such wards of a city, town, &c., which shall not have filled the quota assigned to it within the time designated for the number required to fill said quota.

The drafts will be commenced as soon after the 15th of April as practicable.

The Government bounties, as now paid, continue until April 1, 1864, at which time the additional bounties cease. On and after that date, one hundred dollars bounty only will be paid, as provided by the Act approved July 22, 1861.

SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Tuesday, March 15.

THE MATTER OF EXCHANGES—A POSITIVE STATEMENT.

There is some contradiction here as to the action of the Government in reference to exchanges. The facts are these. Some weeks ago Commissioner OULD notified Gen. BUTLER that at a certain date he would declare certain paroled prisoners exchanged, and that he (BUTLER) might do the same, to which Gen. BUTLER acceded, and issued an order as suggested by OULD, which was at once countermanded by our Government. BUTLER then made the percentage arrangement, and the Government has stopped that. Notwithstanding semi-official contradictions, the plan of exchange adopted by Gen. BUTLER has been rejected by the War Department, and exchanges on that basis have been stopped.

THE FLORIDA CAMPAIGN.

The Committee on the Conduct of the War have addressed letters to the President and Secretary of War, requesting them to furnish all correspondence relative to the Florida campaign.

A NEW FOE TO THE ARMY AT CHATTANOOGA.

An officer of the army at Chattanooga writes to a friend here that our army cannot long remain in its present position, owing to the stench arising from an immense number of dead horses and mules which have died from starvation during the Winter. The country around Chattanooga for many miles is strewn with decaying carcasses, estimated to number nearly fifty thousand.

THE MISSOURI CONTESTED ELECTION CASE

Mr. KNOX finished his argument to-day before the House Committee on Elections in the Missouri contested election case. The committee will probably take definite action on it to-morrow. Those who have heard both sides, say that BLAIR has the worst of the argument so far.

THE BANKRUPT ACT.

The Special Committee on the Bankrupt Bill today unanimously instructed their Chairman, Mr. JENCKES, to report the bill which he has prepared, and of which notice was given some time since. The new bill differs materially from the one proposed last session, and is less objectionable in its general features. It embraces both the debtor and creditor interests.

ARRIVAL OF COLLECTOR BARNEY.

Collector BARNEY arrived here to-day and had a long conference with the President this afternoon in relation to affairs in the Custom-house, New-York. There is not the slightest foundation for the rumor that he is to be superseded.

PROVOST-MARSHAL AT BALTIMORE.

Col. JOHN WOOLEY, of Indiana, has been appointed Provost-Marshal at Baltimore, under Gen. LEW WALLACE.

NOMINATION OF GEN. SMITH.

The President sent to the Senate to-day the nomination of Gen. W. F. SMITH as Major-General in the Regular army, made vacant by the promotion of Gen. GRANT.

CONFIRMATIONS.

The Senate to-day, after animated discussion in Executive Session, confirmed Mr. DELANY as Judge of the United States District Court for Kansas.

THE GOLD BILL.

The Gold Bill, in its amended form, will probably pass to-morrow.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Tuesday, March 15.

EXTENSIVE DESTRUCTION OF REBEL SALT WORKS.

The Navy Department has received the details of two expeditions sent out from the gunboat *Tahoma*, during the last month, the objects of which were successfully accomplished. Having marched through swamps and dense woods a distance of four miles, they destroyed the rebel Government salt works at St. Mark's, Florida. These were seven miles in extent, and connected with them were, among other things, 390 salt kettles, 170 furnaces and 165 houses and shanties. Similar works ten miles distant shared the same fate. The property destroyed is estimated at $2,000,000.

DEMOCRATIC CAUCUS.

The Democratic members of Congress held a causus to-night, Representative DAWSON in the Chair, and Representative STEELE, of New-Jersey, acting as Secretary. There was a free conversation concerning the bill, as reported by Mr. DAVIS, of Maryland, for reconstruction in the insurreotionary States, and a committee was appointed to prepare a bill antagonistic to that one, embracing such principles as will unite the votes of the Democratic members.

THE GOODYEAR PATENT.

The extension of GOODYEAR'S vulcanizing patent is now agitated here by interested parties from the North. The Senate's Committee on Patents, at a meeting this evening, decided to await the action of the House, whose committee has the subject now before it.

LOBBY ON THE GOLD BILL.

There are many visitors in Washington, attendant on the proceedings of the House, evidently interested in the Gold Bill, judging from the eagerness with which they crowd the telegraph office in the House of Representatives gallery, and communicate with their distant friends, regarding the condition of that measure.

THE COLONIZATION FUND.

Some time ago the House of Representatives called for information relative to the Colonization Fund, appropriated by the last Congress to enable the President to deport hence persons of color. A reply has been furnished that the sum of $33,226 has been drawn from the Treasury up to the present time; $230,000 was drawn by Hon. S. C. POMEROY, for South American colonization, but which was not carried into effect, owing to the remonstrances of the Governments of the countries to which it was proposed to transport negro colonists. No specific practical results of this expenditure are given. A special agent, it appears, has been sent to the Island of Ayash, in Hayti, to inquire into the reported facts attending the distressed condition of a large party of negro emigrants from this country.

THE HOMESTEAD BILL.

The features of the bill recently reported by Representative JULIAN, of Indiana, extending the Homestead principle to confiscated and forfeited lands of the rebels, were indicated by him in a speech delivered a year ago. The bill was not founded on a letter of Solicitor WHITING, as heretofore stated, although that gentleman, while the measure was pending before the Committee on Public Lands, communicated, by request, his views upon the subject, which are in support of the same principle.

CONFIRMATIONS.

The Senate to-day, in executive session, confirmed the nomination of CHARLES GILPIN, to be United States Attorney for the Eastern District of Pennsylvania, and MARK W. DELANEY, of Kansas, to be Judge of the United States District Court of Kansas.

NAVAL CAPTURES.

The Navy Department has received official information of the following captures:

On Feb. 25 the United States bark *Roebuck* captured in Indian River, abreast of Fort Capron, the British sloop *Two Brothers*, from Nassau, bound to Dixie, and laden with four bags of salt, one keg of liquor, four boxes of goods, and one keg of nails.

On the 27th the *Roebuck* captured, at the same place, the British sloop *Nina*, from Nassau, bound to Sand Point, laden with liquors, coffee and boxes of goods.

On the 29th the same vessel captured the schooner *Rebel*, with a cargo consisting of salt, liquor, cotton, &c.

On March 1 the *Roebuck* also captured the British schooner *Lauretta*, laden with 52 bags of salt, two miles from the entrance of Indian River.

These prizes were all sent to Key West for adjucation.

REFORMED REBELS.

This morning, eighty-six deserters from the rebel army were released from the Old Capitol Prison upon taking the oath of allegiance. They desired to go North, and were accordingly furnished with transportation to New-York City.

THE WEATHER.

There was quite a fall of snow for about one hour to-day, with a strong northwest wind, but it has nearly ceased.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Tuesday, March 15.

RIGHT OF SUFFRAGE TO CITIZENS OF AFRICAN DESCENT.

Mr. SUMNER, of Mass., (Union,) presented the petition of one thousand citizens of Louisiana of African descent, to be allowed to vote in the reorganization of Louisiana. The petition is approved by ANTHONY FERNANDEZ, President of the Louisiana Association of the Veterans of the War of 1812, founder of the First Union Association, and a member of the Central Committee for the organization of a Free State; by THOMAS J. DURANT, President of the Free State Committee, and by other citizens. It represents that all are owners of property, many engaged in the pursuits of commerce, paying taxes for forty-nine years on an assessment of fifteen millions of dollars, and that at the call of Gov. SHEPLEY they raised the first colored regiment in forty-eight hours.

CAPT. FISK'S ROCKY MOUNTAIN EXPEDITION.

Mr. ANTHONY, of Rhode Island, (Union,) from the Printing Committee, reported a bill to print 5,000 copies of the report of Capt. FISK of his expedition to the Rocky Mountains. Adopted.

REPEAL OF THE COLONIZATION ACT.

Mr. WILKINSON, of Minnesota, (Union,) presented a bill to repeal all acts making appropriations for the colonization of persons of African descent. Referred to the Committee on Territories.

CENTRAL AMERICA.

Mr. MCDOUGALL, of California, (Dem.,) offered the following, which was agreed to:

Resolved, That the President be requested to communicate to the Senate, if not incompatible with the public interest, any correspondence or other information in the possession of the Government relating to any plan or plans now projected or being projected with a view to the establishment of monarchical government in Central or South America.

CONSOLIDATION OF THE REGULAR ARTILLERY.

Mr. WILSON, of Massachusetts, (Union,) introduced a bill to promote the efficiency of the artillery arm of the service. Referred to the Judiciary Committee. The bill consolidates the five regiments of artillery now authorized by law, under the title of the Corps of Artillery, composed of one Chief of Artillery, with the rank of General; five Colonels, five Lieutenant-Colonels, fifteen Majors, and sixty batteries. The batteries are to consist of one Captain, two First and two Second Lieutenants, and one hundred and forty-five non-commissioned officers and privates. The bill makes the Chief of Artillery a member of the Ordnance Board, and gives him, under the Secretary of War and General-in-Chief, the direction of the volunteer army when mustered into the service.

COLLECTION OF TAXES IN INSURRECTIONARY DISTRICTS.

Mr. DOOLITTLE, of Wisconsin, (Union,) introduced an act to amend the act of June 7, 1862, for the collection of direct taxes in insurrectionary districts, which was referred to the Judiciary Committee.

The bill provides that under the sales of the TAX Commissioners in such districts, a writ may issue by said Commissioner to the Marshal of said district, commanding him to put said purchaser in possession of said property. Property as above purchased by the United States may be divided into parcels of fifty acres, and preemption rights granted to persons for meritorious services in the crushing of the rebellion, who shall have resided in the States where the lands laid. The right to redeem said lands by loyal lien creditors is prescribed by the bill.

A RECONSIDERATION.

On motion of Mr. FOSTER, of Connecticut, (Union,) the Senate reconsidered its action of yesterday on the passage of the House bill defining the rank, pay and emoluments of certain officers of the army. Mr. FOSTER offered an amendment, which was ordered to be printed.

THE BILL CONCERNING CHAPLAINS.

The Senate bill relating to Chaplains was called up and passed, and on motion of Mr. WILSON, the clause relating to Chaplains having been anticipated by the House bill, it still was amended as "Bill Relating to Enlistments."

THE DIPLOMATIC APPROPRIATION BILL.

After the passage of the bill allowing the conferring of degrees by the Deaf and Dumb Institute of the District of Columbia, the Chairman of the Committee on the District of Columbia (this being the day set apart for District business) gave way to allow the Senate to consider the Consular and Diplomatic Appropriation bill.

Mr. SUMNER'S amendment raising the rank of the Minister Resident at Belgium (Mr. SANFORD) to a Minister Plenipotentiary without corresponding pay, was adopted after considerable debate.

Amendments were adopted increasing the salaries of the Consuls at Shanghai, Nassau, Lyons and Manchester.

Without disposing of the bill, the Senate, at 4 o'clock, went into Executive Session, and subsequently adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Tuesday, March 15.

THE FRANKING PRIVILEGE.

The House took up the Senate bill, providing that the franking privilege of the President and Vice-President shall extend to and cover all mail matter sent to or from either of them.

Mr. KASSON, of Iowa, (Union,) suggested that further consideration be given to the subject, as the mails should not again be thrown open for the sending to those officers, postage free, essays, applications for office, and papers of no use or importance to them.

Mr. NORTON, of Illinois, (Union,) said there should be one rule for all having the franking privilege, and hence the President and Vice-President should be placed on the same basis as Congressmen. He (NORTON) was willing to abolish the franking privilege altogetner.

Mr. ALLEY, of Massachusetts, remarked that the parties interested desired that the bill should be passed, as at present they are subject to an onerous taxation.

The bill was then passed.

ASSAY OFFICES IN THE TERRITORIES.

Mr. MORRILL, of Vermont, (Union,) from the Committee on Ways and Means, reported a bill to establish an ASSAY Office at Nevada Territory, and also one at Portland, Oregon.

Referred to the Committee of the Whole on the State of the Union.

COMPENSATION IN A CONTESTED ELECTION CASE.

Mr. DAWES, of Massachusetts, reported a resolution from the Committee on Elections to pay JOHN S. SLEEPER $750 for time spent and expenses incurred in contesting the seat of Mr. RICE from that State.

Debate ensued, involving the merits of the election, which has already been decided by the House.

The resolution was laid on the table.

REPORTS OF GENS. ROSECRANS AND MEADE.

Mr. AMBROSE W. CLARK, of N. Y., (Union,) from the Committee on Printing, reported in favor of printing 10,000 copies of the reports of Gen. Rosecrans.

The resolution was adopted.

A resolution was also adopted to print 10,000 copies of Gen. Meade's report of the battle of Gettysburgh.

THE GOLD BILL.

The House then resumed the consideration of the Gold Bill.

Mr. GRISWOLD, of New-York, (Union,) said that when the debate on the subject commenced, he was absent from Washington, but being in contact with business men, those not interested in gold speculations, there was an almost universal expression of hope that the power to sell gold would be conferred on the Secretary of the Treasury. He believed all concurred that the Treasury should be depleted of its excess of gold. The only point of difference was as to the manner in which this should be done. The gentleman from Massachusetts (BOUTWELL) yesterday said the Secretary of the Treasury had not recommended this measure. But he (GRISWOLD) believed the Secretary had sent a letter to the Committee of Ways and Means, asking for authority to sell.

The debate was continued by Messrs. Griswold, Hubbard, Broomall, Morris, Dennison, Woodbridge, Garfield, Davis of New-York, Pride and J. C. Allen, when—

Mr. HUBBARD, of New-York, (Union,) offered an amendment to the bill, as a proviso that the obligation to create a sinking fund by the act passed Feb. 5, 1862, shall not be impaired thereby.

Mr. STEVENS, of Pennsylvania, (Union,) expressed the hope that the vote on the bill would be taken early to-morrow.

At 4¼ o'clock the House adjourned.

EUROPEAN NEWS.

Arrival of the Malls of the Hansa and Jura to March 3—The Alleged Federal Recruiting in Ireland—Speech of Earl Russell.

The steamship *Hansa*, on March 2 from Southampton arrived yesterday morning. Her advices were anticipated by those received by the *Jura* via Portland. The mails by the *Jura* also came to hand last evening.

The *Hansa* was formerly under the Bremen flag, but changed her colors to those of Russia, in consequence of the trouble existing between the Danes and Germans.

GREAT BRITAIN.

PROCEEDINGS IN PARLIAMENT.

FEDERAL RECRUITING IN IRELAND.

In the House of Lords, on March 1, Lord CLANRICARDE moved for any reports received as to recruiting in Ireland for the North American army. He also asked whether any remonstrances against such proceedings had been addressed to the Federal Government. He referred to the severity of the law as to the offence of enlisting men for foreign service, even down to a comparatively late period, and stated it was notorious that recruiting for the Federal army had been extensively carried on in Irsland for the last two years. He asked what steps had been taken to prevent it, believing the common law sufficient to repress it if put in force. He described the mode in which the recruiting is carried on, under the pretext of engaging men for industrial works, and contended that the practice ought to be put down with a strong hand. In the course of his speech he related the following facts:

"Not quite two months ago a man arrived at a central station in the County of Galway, and at once proceeded to make it known that he had come to engage some hundreds of men, and to take them across the Atlantic, tempting them by the offer of good pay. He made known his business to the publicans in the town where he first stopped, and then went on to another town and did the same thing, promising so much per head for every person whom they succeeded in engaging for him. He alleged that he was engaging laborers for the purpose of making two railways and a canal, the railways in the South and Southwest and the canal in the West from New-York. But it was perfectly well known that they were to be engaged as soldiers, and that the situation of the supposed works would enable him to send them in whatever direction he pleased. The police very properly interfered, and he was the magistrate before whom the man was brought. His whole history was perfectly well known. He was native of a village not many miles from the town where he was stopped. He had been a soldier in the American army, and having been wounded, was sent to Ireland. He produced papers authorizing him to enroll any number of laborers for these works, and was very anxious to assume the character of an American citizen. It was a remarkable thing that he had no more money about him than was sufficient for his personal expenses, and when asked to explain how, with such means, he was to pay the laborers and the publicans for their aid, he referred not to any great railway contractor or engineer, or other person generally found to be in connection with such schemes, but to the American Consul. The American Consul at Liverpool gave him, he said, a letter to the American Consul at Dublin, and if they were written to it would be found that he was solvent and well able to discharge all his engagements. The man was a little astonished when he told him that he should not admit his American pretensions; that he knew him to be an Irishman, and should treat him the same as any Irishman who had never left his native village, and that the reference to American authorities would not avail him one jot. It was transparent that it was intended to infringe our law."

After Lord CLANRICARDE had concluded, Earl RUSSELL spoke as follows:

"My noble friend will excuse me if I do not advert to many of the topics on which he has touched, and deal only with his tangible points. I don't think it necessary to enter into the reasons why I was in favor of the repeal of the Foreign Enlistment Act in 1823, nor shall I discuss whether the office of Lord-Lieutenant of Ireland is useful or not, or whether the conduct of the American Government in 1855 was proper or not. As far as I can understand the drift of my noble friend, he argues that because the American Government acted improperly in 1855; therefore we ought to act improperly now. [Oh, oh!] The real question which my noble friend has brought forward is that of foreign enlistment in Ireland. I quite admit that it is an offence against the law and against the amity which the American Government is bound to show toward Her Majesty's Government. Wherever such an offence can be proved it ought to be prosecuted by Her Majesty's Government, and it certainly furnishes a subject of complaint against the United States Government if it has authorized it. My noble friend has said truly enough that we have complained from time to time that there was a process of recruiting going on in Ireland on behalf of the American Government. Last year I presented papers—correspondence between Mr. ADAMS and myself—on the subject of British subjects in the Federal armies, and those who have read that correspondence may remember that our complaints were of a general nature, because we had not evidence of particular cases in which the offence was brought home to American agents. Mr. ADAMS, on each occasion, denied the truth of these allegations, and on one occasion he said that until I had brought it to his notice he did not think there was anybody in this country who could have believed it possible that agents of the United States Government were employed in enlisting British subjects for the Federal armies. With that general allegation, and with that general denial, I could only wait until there was a case in which particular evidence could be produced. In the month of January of this year a person named PIKE stated that a person named FINNEY had gone about engaging men to enlist. It was stated that this FINNEY had invited men to go out and get good wages in the United States, and afterwards said that they would get much larger sums of money if they would enlist as soldiers in the United States army. The matter was investigated, and no evidence except that of this person named PIKE could be had; and it was alleged that he had been engaged by FINNEY as an assistant, but had not received the reward which he thought sufficient, and that being excited by that circumstance he invented this story of the recruiting. It was further alleged that the real object of FINNEY was to engage men to be employed on railways in the United States. The law officers of the Crown in Ireland investigated the matter, and they were of opinion that if there was no other evidence than that of PIKE against this man, the evidence would not be believed, and that, consequently, there was no chance of a conviction in a court of law. When they gave that opinion, the Home-office here arrived at the conclusion that it was not desirable to institute a prosecution. [Hear, hear.] It must be borne in mind that the United States Minister has said, and said with perfect truth, that owing to the great number of men employed in the Federal army, and owing to the great progress which railway works are making in the United States, there are many railway companies in America which are anxious to obtain men and ready to pay them high wages. The Chicago Railway Company is known to have hired men for the purpose of working on their line; and we have information that this person, named FINNEY, hired a room in Dublin a few days ago, and there engaged young men, who are going, or are gone to the United States. My noble friend must perceive that even although it could be proved that many of those young men are arriving in New-York, tempted by the large bounty offered to them, many enter the army of the United States, yet if they go from this country without any contract to enter the army—if they go for the purpose of obtaining good employment and good wages—and wait till their arrival in New-York to decide whether they will be railway laborers or soldiers, there can be no ground for a prosecution under the Foreign Enlistment Act. [Hear, hear.] My noble friend has told us in the most circumstantial manner of a person known to have been engaged, according to his opinion, in the horrid plot of taking men in contravention of the Foreign Enlistment Act, to be employed in the army of the United States. One would have expected that a person with the activity, the patriotism and the knowledge of law possessed by my noble friend, would have been able to pursue this man to conviction; but there the story ended, my noble friend saying there was no evidence. [Hear, hear.] I have heard of a man in the county or the City of Cork, who was said to have engaged laborers on the promise of a large amount of wages or a large amount of pay; but it appears that he began by asking the persons who were to enter into the contract with him, for threepence each, and when he had collected a sufficient number of threepences he and his comrades went off. [A laugh.] That was not a transaction from which the United States gained much. Another case alluded to by my noble friend was that of a man-of-war at Queenstown. Undoubtedly there were a number of men found on board the *Kearsage*, a United States man-of-war, who were said to have been engaged as seamen, and to have been carried off. On hearing this report I at once wrote a complaint to the Minister of the United States in London, telling him that I had heard the Consul of the United States had been instrumental in enlisting these men, and expressing a hope that a thorough inquiry would be made. The Minister of the United States wrote to say that, so far as the Consul was concerned, he denied all knowledge of such a transaction, and His Excellency furnished me with a copy of a letter from the Captain of the *Kearsage*, which is as follows:

UNITED STATES STEAMER KEARSAGE, AT SEA, Dec. 7.

SIR:—A party of men, either by connivance of the crew or otherwise, were concealed on board this vessel on the night of her departure from Queenstown, the 5th ult. These men, I learn, were in expectation of being enlisted in the service of the United States after the *Kearsage* had proceeded to sea, but found their mistake. [An ironical laugh from the Opposition.] To have returned them ashore at Brest would have been to open to them the temptation to enlist on board the *Florida*. I therefore determined to leave them at Queenstown as soon as it was practicable. You will please notify Admiral JONES that I informed him that no enlistments would be made at Queenstown. I have, therefore, sent on shore this party, that no charge of subterfuge may be alleged in the premises. Very respectfully, your obedient servant,

JNO. A. WINSLOW, Captain.

E. G. EASTMAN, Esq., United States Counsel at Queenstown.

I do not know that the Captain could have behaved otherwise than he did. When we found that these men had been enlisted, her Majesty's Government consulted the law advisers of the Crown, and they directed that a prosecution should be instituted, and as far as I know the prosecution is going on. [Hear, hear.] A suspicion may arise that the Captain was aware that these persons had been enlisted before they went on board [ironical laughter from the Opposition], but all I can say is that the Captain gives the explanation which I have read for your Lordships. These are the cases which have occurred in the present year. I quite agree with my noble friend that every case of the kind ought to be watched; and the police in Ireland, and the Government of Ireland, are ready to watch them. [Hear, hear.] I also quite agree with my noble friend, that no violation of the Federal Enlistment Act ought to be permitted without a prosecution, if there is evidence to sustain one; and on that principle Her Majesty's Government have determined to act. [Hear, hear.] My noble friend has said what he has never been able to prove—that the neutrality of Her Majesty's Government has not been an impartial neutrality. Well, the United States Government are of opinion that from the very beginning Her Majesty's Government have taken a side favorable to the Confederate States, and that allowing the latter belligerent rights—which, they say, induced other nations of Europe to allow them the same rights—was very partial conduct, because it was very favorable to the insurgents. I have always contended against that pretension. We considered that as the Confederate States comprised so many of the States of North America, were inhabited by so large a population, and contained so much of the wealth that had existed in the United States, our decision was not a partial, but a perfectly impartial decision, founded on the fact that the Confederate States were entitled to belligerent rights. [Hear, hear.] No doubt it may be said, and it has been said, that this advantage has enabled them to derive very considerable supplies, and so enabled them to carry on the war against the Federal States. On the other hand, the Confederate States made their complaint with respect to the conduct of Her Majesty's Government, whom they have all along conceived to be partial as against them. I must say that, though they are entitled to impartial conduct, they are not entitled to any other conduct at our hands, because, though recruiting for the Confederate States does not take place in this country, as far as we are aware, conscription does take place as regards British subjects residing in the Southern States. When we have endeavored to obtain redress for this, we have found that the Consuls who were appointed when all the American States were united, have on a sudden been driven from the Confederate States, and there is no one there who can take up the case of British subjects, who are very frequently forced into the Confederate ranks against their own will. This and other hardships are inflicted upon British subjects in the Confederate States, and from the loss of Consuls they are not able to make complaints and obtain the redress to which they are entitled. [Hear.] But, my Lords, with regard to the whole matter of this war, *it has been the determination of Her Majesty's Government to pursue an impartial neutrality. That course has been steadily pursued. I see no reason myself for our taking part either with the Northern States or with the Southern; and we are determined to continue to maintain a course of impartial neutrality.* [Cheers.]

Lord DONOUGHMORE strongly urged the Government to some course of action on this matter.

Lord GRANVILLE cited several cases to prove the difficulty of acting. Notwithstanding all the rumors of enlistments, only one case had really been brought under the attention of the authorities, and in that the proof was defective. If the enlistments were so notorious in Ireland as they were represented, it would not be so difficult to obtain any proof of them.

In reply to a question by Lord DERBY as to the reported movements of the Fenian Brotherhood,

Lord GRANVILLE stated that its proceedings were watched, but he believed, on investigation, they would prove to be of the most contemptible character.

Lord CLANRICARDE would not press his motion; and the House adjourned.

Correspondence of the Associated Press:

PANAMA, Monday, March 7, 1864.

The *Ariel* arrived at Aspinwall on the evening of the 3d inst., with a big crowd of passengers, who got off next morning on the *Constitution* for San Francisco.

The most exciting topic of conversation, since the sailing of the last steamer, is the news from the capital of this Republic that the Senate has decided the registration of votes for the election of President in favor of MANUEL MURILLO TORO, late Minister to the United States.

The election gives great satisfaction to the ultra Liberal party.

SOUTH AND CENTRAL AMERICA.

A Slight Shock of Earthquake—The Spanish-American Congress—A Conscription—Senor Manuel Murillo Declared President of the United States of Columbia.

From Our Own Correspondent.

PANAMA.

PANAMA, Monday, March 7, 1864.

The *Golden Age*, which arrived here from San Francisco, this morning, brings an unusually small specie list, both for Europe and the United States, and but forty-three passengers. The *Age* left five French war-ships at Acapulco, Mexico, blockading that place and awaiting orders. The California and Panama steamers are boarded in going in and coming out of Acapulco by the French naval officers, and are not allowed to take or land freight or passengers. The United States flagship *Lancaster* and gunboat *Saginaw* are at Acapulco.

We have nothing of note, locally. On Friday morning last, we had a slight shock of an earthquake, which only rattled the crockery, and made a few old ladies a little more nervous than usual.

Considerable interest is manifested here in regard to the contemplated Congress of the Spanish-American States, spoken of in my last. It was at first said the meeting would take place at Panama, but it may possibly be held at Lima. No time has yet been fixed but it is supposed arrangements will be completed by next March.

Two Commissioners from President MOSQUERA are now in Panama, on their way to Venezuela, to advance his idea of the revival of the old Colombian Republic, or confederation of the three States which composed it—New-Granada, Ecuador and Venezuela.

The small-pox has entirely disappeared from the cities of Panama and Aspinwall.

But little progress has been made in raising the 5,000 men called for from this State for the army of the Republic. Enough has been done, however, to frighten the people of the interior, so that for fear of the conscription, they do not bring us much produce, so that provisions are scarce and dear, and labor high. In the interior, and particularly at Bogota, great complaints are made of the dearness and scarcity of provisions and labor, resulting from the same cause.

The United States sloop-of-war *Cyane* and the British war ship *Devastation* are at Panama, and the British frigate *Challenger* is at Aspinwall. It is reported that Señor MURILLO, President elect of this Republic, will be sent by President LINCOLN to Cartagena in a naval vessel. In that case, it is to be hoped she will drop into Aspinwall, where the United States flag on a naval vessel has not been seen for nearly a year.

Captain CONNOLLY, of the H. B. M. flagship *Sutlej*, in the Pacific, has been relieved at his own request, and will go to-day to take a peep at New-York, on his way home.

PERU, CHILI, ETC.

The British mail steamer from Valparaiso and intermediate ports arrived at Panama yesterday. Her news, which is up to the 16th of February from Valparaiso, and the 27th from Lima and Callao, is unimportant. From Guayaquil we have dates, via Paita, to 27th February. The Republic was perfectly quiet. Most of the soldiers raised to fight against MOSQUERA'S army had returned to their homes, and planting and trade have resumed their usual course.

Peru has offered to mediate between Chili and Bolivia on the Mejillone guano and territorial dispute. Gen. VIVANCO has gone as Peruvian Minister to Chili. The Minister of Colombia to Peru, Don JUSTO AROSEMENA, had also gone from Lima to Santiago de Chili on business of a diplomatic character. The cultivation of cotton in Peru is largely increasing.

Bolivia is quiet, and progressing in her mines, agriculture and public works.

Chili is occupied with the coming elections for Congressmen. A much larger share than heretofore of the liberal element will be infused into the new Congress, and the privileges of the priests will likely be curtailed.

Freights from Valparaiso to Europe, £3 16s. to £4 5s.

Nicaragua dates are to the 29th February. Congress had aproved the Morris contract, made lately at Washington by Señor MOLINA J. C. WOODS, Esq., the agent of the Morrises, writes in high spirits, and thinks he has got a big thing. He says these is now ten feet water on the bar at Greytown—built judge he has not measured it, personally. The country is quiet.

Salvador dates are to the 27th. Congress opened Feb. 18. On the 20th, Congress sanctioned the expulsion of Gen. BARRIOS, the Liberal President of the country, and conarmed the place to DUENAS. Gen. BARRIOS is now in New-York.

UNITED STATES OF COLOMBIA.

We have dates from Bogota, the capital, to the 12th of February. The extra session of Congress was merged into the regular annual one on the 1st of February. The Senate elected as its President Señor FRANCISCO JAVIER SALDUA; Vice-President, Señor JUAN A.

Present bounties will be paid to April 1, after which time only one hundred dollars regular bounty will be paid by the Government.

On Friday evening last a detachment of one hundred men from Gen. CUSTER'S cavalry command started on a scout toward Blair Mountain, in Madison County, Va., which is a well-known rebel guerrilla resort. Sometime during Friday night they made a dash into a guerrilla camp on the stream known as Conway River, just west of the above-named mountain, and drove about fifty of the guerrillas across the river, and captured twenty others, together with their horses, before they could get away. They also captured ten negroes and brought them in. The command returned to their camp yesterday morning in good order, not having lost a man or a horse, or had one injured.

The President yesterday sent to the Senate the nomination of Gen. W. F. SMITH as a Major-General in the regular army, to fill the vacancy caused by the promotion of Gen. GRANT. This is understood to be at the request of the latter General, and looks to the assignment of Gen. SMITH to an important command, as this appointment promotes him from his present rank of Brigadier-General of Volunteers. He has been once rejected by the Senate when nominated for Major-General of Volunteers.

Lieut.-Col. JAMES M. SANDERSON, who was Chief Commissary of the First Army Corps when captured, arrived at Washington on Saturday evening, among the last batch of prisoners from Richmond. On his arrival he was notified that charges had been preferred against him by Col. KNIGHT, that while in Libby Prison he disclosed to the rebel authorities information of a plot to escape. He is now under arrest in Washington.

The Governor yesterday signed the Metropolitan Police Bill, the one originating in the Senate, and which appoints Messrs. ACTON, BERGEN, BOSWORTH and MCMURRAY the Police Commissioners.

CONGRESS.

In the Senate, yesterday, Mr. SUMNER presented a strongly-indorsed petition of one thousand citizens of Louisiana, of African descent, praying for the rights of suffrage in that State. Mr. WILKINSON presented a bill to repeal the Colonization Act. Mr. WILSON introduced a bill for the reorganization of the artillery of the regular army. Mr. DOOLITTLE introduced a bill for the better collection of taxes in insurrectionary districts. The Diplomatic Appropriation bill was taken up, and an amendment was adopted, making the Belgian mission of the first-class, without corresponding pay. Without concluding action on the bill, the Senate adjourned.

In the House, yesterday, a bill was passed extending the franking privilege to the President and Vice-President, so as to cover all matter sent by or to them. A resolution was passed to print 10,000 copies of the reports of Gens. ROSECRANS and MEADE. The House then resumed consideration of the Gold Bill, and discussed it at length, but, without coming to a conclusion, the House adjourned.

STATE LEGISLATURE.

In the Senate, yesterday, numerous petitions and remonstrances against the Harlem Broadway grant were presented. Among bills reported was one incorporating the Corn Exchange Warehouse and Security Company; to prevent encroachments upon the harbor of New-York; against confiscating the Macdougal-street contract agreed to. Mr. LAIMBEER gave notice of a bill to confirm acts in the New-York Supervisors' Office relative to the late riots. Among bills introduced was one to incorporate the Catholic Library Association of Brooklyn; legalizing the volunteer bounty indebtedness, Richmond County; relative to a record in the New-York Police Courts and Court of Special Sessions, and to provide for the settlement of arrears of personal taxes in New-York. A bill was passed legalizing the bounty resolutions of the Brooklyn Common Council; authorizing the Erie Railroad Company to increase their capital stock eight millions, and liquidate three millions of bonds; naming WASHINGTON'S Birthday as a legal holiday.

In the Assembly, yesterday, the annual Supply Bill was introduced, and also a bill making appropriations to public and charitable institutions; and for the settlements of arrears of taxes on personal property in New-York. The bill to regulate the Freight Tariff of the Hudson River Railroad was recommitted.

GENERAL NEWS.

The Finance Committee of the Board of Councilmen yesterday reconsidered the City Appropriation Bill. The meeting was held in private, but all persons interested in the important subject before the committee had been invited to attend and present such facts and make such requests as they wished to. Messrs. THOMAS BOESE, Clerk of the Board of Education, appeared and presented the views of that board upon what they conceive to be the absolute illegality of reducing their estimates $100,000, which the Board of Aldermen have voted to do. Mr. ANDREW H. GREEN, Comptroller of Central Park, appeared on behalf of the Central Park Commission, to argue what they believe to be an injustice to the commission and the public of reducing their estimate of $150,000 for the maintenance and government of the Park to $130,000, as voted by the Aldermen. Chief Engineer DECKER appeared in behalf of the Fire Department, to give information concerning its needs for the year; and letters in regard to their several departments were received from CHAS. G. CORNELL, Street Commissioner, JOHN E. DEVELIN, Corporation Counsel, and from the Croton Aqueduct Board. The committee will report the budget back to the board this afternoon, at 2 o'clock, when it will be taken up and passed upon.

At the meeting of the Board of Supervisors yesterday, a petition from the stone-cutters employed on the new Court-house for $2 75 per day of nine hours' work, which they state is the rate of pay and length of time fixed for day's labor by the organized stone-cutters of the City, was referred to the Special Committee in charge of the work, with power. A resolution by Mr. BLUNT for a special committee of four, to ascertain what bills affecting the county have been introduced at Albany this Winter, what steps, if any, are necessary to protect the interests of the county, and to place before the Legislature such information as to the practical workings of the County Government as will prevent any legislation injurious to its interests, was adopted. Messrs. BLUNT, PURDY, CONNER and STEWART, were appointed such committee. The Mayor's nomination of CHAS. F. WATTS as Marshal, *vice* SYLVESTER ROBBINS, appointed last year, but who failed to qualify, was taken up and confirmed. The Committee on Annual Taxes were instructed to ascertain from the Pilot Commissioners what steps they have taken to reclaim costs of removing sunken vessels from their owners. Adjourned to 2 o'clock P. M. on next Monday.

The Board of Supervisors, as a Board of Court Canvassers, yesterday completed the canvass of the returns of the city for the late election on the proposed amendment to the State Constitution, relative to soldiers' voting, made the formal declaration of results, and adjourned *sine die*, having been engaged a portion of two days in accomplishing this task. The total vote was found to be 23,236, of which 16,388 were in favor of the proposed amendment, 6,830 were against it, and 18 were blank, irregular and informal votes, making the actual majority in favor, 9,558. These figures tally almost identically with those reported by the police on the night of the election. The vote by wards we publish in a table in another column.

The case of the Mariposa Mining Company against CORNELIUS K. GARRISON is before Justice BARNARD, at Chambers of the Supreme Court, on a motion to change the place of trial from this City to California, and Mr. GARRISON is being examined on the motion. What the examination lacks in interest of detail, is made up by counsel, Messrs. O'CONOR and FIELD, who appear to enjoy taking each other off as well as those about them enjoy the entertainment. It is claimed that the only cause for the desire for a change of the place of trial is, that the change will effect the payment of the judgment—the question being whether it shall be paid here in legal tenders or in California in gold.

By the arrival of the steamship *Ariel* at this port yesterday, we have news from Central and South America to the 7th inst. Señor MURILLO, late Minister to Washington, had been duly proclaimed President of the Republic of Colombia. It was rumored that this did not give entire satisfaction to MOSQUERA. News from the other South American States was entirely unimportant. The Nicaraguan Government had ratified the contract with the Central American Transit Company. The French blockade of Acapulco was rigidly enforced. The health of the Isthmus was good.

The Hudson River Bridge Bill was reported in the State Senate on the 14th, by Mr. AMES, of the Committee on Commerce and Navigation, by providing that the draw shall be ninety-five feet instead of eighty; that in the management of the draw navigation shall have priority over the railroad; and that an injunction may be served from any of the judicial districts of the State, instead of confining it to the Third District, as the bill originally provided.

The Maj. WHITE released by the rebels is Maj. H. A. WHITE, of the Pennsylvania Cavalry. Maj. WHITE, the late Senator, is still in close confinement at Salisbury, N. C.

The Chicago *Journal* learns that Gen. BURNSIDE is making rapid progress toward the organization of an expedition, which is to sail from New-York for a point not now known.

The Live Stock Markets are crowded with animals this week, the receipts being 5,824 beeves, 600 calves, 14,672 sheep and 9,960 hogs, besides large numbers of calves sold direct from the Hudson River boats, now that they are running, and heavy arrivals of Western dressed hogs, and Albany killed sheep. Beef cattle sold slow at an average decline of 1c. ℔ lb. from last week, the market closing 2c. lower, with several hundred left over. Prices ranged from 9c. for scallawags, to 12c.@14c. for medium and good, and 15c. for choice fat beeves, the average of all kinds being about 13c. ....Sheep are very abundant, and from ½c.@1c. ℔ lb. lower than last week. Good lots command 8½c., and 8¾c. if very fat....Live hogs are plenty and a shade lower, selling slowly—corn-fed at 8c.@8¼c., and still hogs at 7¾c.

Breadstuffs were in rather more demand yesterday, and generally firmer. Provisions were in lively request. Butter was much dearer. Cotton was dull and heavy. A moderate inquiry prevailed for Groceries, Metals, Oils, Hay, Hides and Tallow. Whisky was more active. The changes in other branches of trade were not important.

The fluctuations in Gold yesterday were 163@160½ ℔ cent., closing at 161¾ ℔ cent., as on Monday. The Stock Exchange firm through the forenoon, but weak at 4 o'clock in the afternoon. Money in good supply, at 6@7 ℔ cent.

THE NEW CALL FOR TWO HUNDRED THOUSAND SOLDIERS.—The President yesterday issued a call for two hundred thousand more troops, to be enforced by draft on the 15th of April, if not sooner filled by voluntary enlistments. This call is not entirely unexpected. It may not be generally known, but it is nevertheless strictly true, that under the last call for two hundred thousand *additional* men in February, the Government has actually received a far less number of men than it called for, though most of the States have filled their quotas. The reason is plain. It was announced that the last call was for the purpose of squaring up accounts, and thereupon an extensive system of research and figuring was begun in every State; all loose accounts of Provost-Marshals and State authorities were balanced up; old credits, not before allowed, were brought forward and allowed on the new quota; scattering men, who had enlisted and never been credited, were counted for the first time; enlistments in the naval service have been credited as recently allowed by law; the veteran enlistments, which came in largely, were credited, and aided many localities to escape the draft; every exertion, and many systems of figuring, some of which we fear were not as straightforward as they ought to have been, were used, until many of the States have announced that their quotas were full under all calls, *with a surplus*. We have in memory at present New-Hampshire, Vermont, Rhode Island, Connecticut, Indiana, Illinois, Iowa, Minnesota and Kansas, and many parts of Michigan, New-York and Massachusetts, all of which have filled their quotas under all calls, and most of them have a surplus left, which is being constantly increased by veteran and volunteer enlistments not heretofore credited. The army has, notwithstanding, been largely and gratifyingly augmented, but not, by any means, to the extent of the last call. That call, as we have said, has been largely exhausted by the credits for old enlistments never before counted. Hence, this new call, though succeeding so rapidly to that of February, can and will be promptly met in most of the States, without any hardship whatever. Many localities have a surplus already to be credited on the new quota, while the necessities of the naval service, including the Marine Corps, offer a larger field than heretofore for the choice of the volunteer. Only in those localities which have been habitually behind in every quota, will the new call be considered as a hardship. This quota filled promptly and honestly, and the army will be so strengthened that we think all future calls can be dispensed with.

The Present Aspect of the War—Causes for Hope.

The future student of history, as he ponders upon the events of this remarkable revolution, will be especially struck with the singular ebb and flow, at almost regular intervals, of the popular feeling. At one time we are on the heights of confidence and hope, having no doubt of the speedy close of the rebellion, and seeing everything in the most rose-colored hues. At another, without any especial change in the conditions—after, perhaps, a few misfortunes or blunders—we are plunged in despondency and gloom, and are ready to believe that nothing has been accomplished or is likely to be.

These changes of the feeling of the people come almost in regular periods, until they seem like a kind of tidal wave of emotion, to which our excitable people are subject. Just now there is a manifest ebb of popular feeling through the whole country. We have reached our regular period of despondency. It is worth while at such times to examine calmly and rationally what are the causes of this decay of confidence, and how we really stand in the progress of the war.

The fact that probably gives rise to the most wide-spread despondency is, that we have as yet accomplished nothing in our Spring operations. The Florida expedition ended in a disaster; the grand cavalry raid in Alabama, under Gen. SMITH, was interrupted by apparently a very inferior force; the mysterious invasion of Gen. SHERMAN'S flying column brought back only a few thousand mules and negroes, and wasted the enemy's territory. We see nothing of the *haute strategie* in all this, which was expected. Charleston, too, is as far from our grasp as ever. Mobile has hardly been attacked. We hear nothing of any success in Texas. Gen. MEADE'S great army lies inactive in Virginia.

Behind all these unfavorable aspects—as they seem to the popular imagination—looms up the perilous question of Finance. The debt is seen to be increasing enormously every day, while Congress is not awake to the duty of correspondingly increasing the taxation. The currency, beside its apparent expansion, is believed to be expanding in modes which are not seen, by the constant paying out of "certificates of indebtedness" and "five per cent. notes." And, worst sign of all, the extravagance of the people is growing at a frightful rate.

These, we believe, are all the gloomy aspects of our struggle which can be taken at the present time by the most despondent; and we propose to offset against them the inspiriting *facts* which have not changed since the hopeful period of a few months ago:

And first and foremost, our armies are being filled up in the most cheering way, by veterans and recruits mingled with old soldiers; so that, in the opinion of many, we shall be more than one hundred thousand stronger than we were a year ago at this time. Still more, we have gained possession, after a severe contest, of the most important strategic point in the Confederacy—East Tennessee—and we have encamped on the slopes of the Tennessee Mountains an army at least one hundred thousand strong, and able to strike either at Virginia or Georgia. If it advance on Atlanta, the great *officina* of the Confederacy, and the chain which binds the Gulf States to the Atlantic, we know that there is nothing in all rebeldom which can hold it back for a week; and the possession of that place at once cuts off the Virginian army from the supplies of Georgia and the Gulf States, and breaks up their greatest manufactory of arms. With the occupation of Georgia, the Richmond *Whig* acknowledges that they cannot keep a great army in the field in Virginia. Why may not this most important event happen before the end of May, changing the aspect of the war as much as did the capture of Vicksburgh?

We know, furthermore, that the rebels have made their last desperate draft of men and supplies from an impoverished and unwilling country. A single campaign may ruin them. Even a few drawn battles, on the scale of Gettysburgh or Chickamauga, would drain them of men and means which they could never replace. A victory would be almost as bad to them as a defeat. With Gen. GRANT down in Georgia, Savannah and Charleston would fall almost as a matter of course. Of Gen. SHERMAN' expedition, the non-military observers do not know enough to be competent judges. We cannot say how far it has tended toward the furtherance of GRANT'S ultimate plans in Georgia. At all events, it has cost but little and been a great damage to the enemy.

It is a matter also of great encouragement that our best military head will now direct all our various operations.

Our Finance depends entirely on our armies and a proper common sense in the people. Any debt that we are likely to incur is as nothing, compared with the immense productive powers of the country, and can easily be met, if Congress will but tax, and the people economise.

Victories in the field and saving at home will carry us through this financial quagmire, as easily as we once bore the small expenditures of peace. On the whole, surveying the entire field, we see no reason for the slightest despondency, but every ground for a rational hope.

JONES VS. SEWARD.—Our readers will recollect the decision of Judge CLERKE, some time ago, in the case brought by GEO. W. JONES against Mr. SEWARD, for false imprisonment, in which he held that the case could not be transferred to the United States, because the law of the United States, which was set up as a defence, was plainly unconstitutional, and, therefore, the defence was not a "case arising under the Constitution or laws of the United States."

We are not surprised that the General Term of the Court should have reversed that order, as they did yesterday. Judge CLERKE'S decision was in substance that unless there were merits in a case, it was not a case. The whole question is stated and decided at once by Judge LEONARD, who gives the opinion of the court, in the first paragraph of his decision, saying, that the question is not whether the Act of Congress which is set up as a defence is constitutional, but whether the act directing the removal to the United States Courts, of claims and defences under that and other acts of Congress, is constitutional. As to the constitutionality of this act there could be little or no dispute.

Judge CLERKE maintains his opinion, which is not, perhaps, to be wondered at. But as the decision of the court is against him, it is hardly worth while to answer the arguments by which he maintains it.

We are glad that this result has been reached, not that it will make any difference in the end, for the question of the merits of the defence would have to be passed upon by the Supreme Court of the United States alike in either case. It is only as to the mode of reaching it. And we are sure that the questions involved will be settled with more satisfaction and less disturbance and anxiety to the country, if they reach the Supreme Court through the shorter and more direct course of an appeal from the Circuit Court of the United States to the Supreme Court at Washington, than if they went there by the long and tedious route through the General Term here and the Court of Appeals at Albany.

GEN. HALLECK.—General Army Order No. 98, which we gave in our issue of yesterday, states that "Major-Gen. HALLECK is, at his own request, relieved from duty as General-in-Chief of the army." This request of the General may be misunderstood by the public without some explanation. The Act of Congress of April 4, 1862, authorizes the President to assign to commands officers of different *rank*, but not of different *grade*. Gen. HALLECK was assigned, under this act, to command as General-in-Chief, although there were other Major-Generals of prior date. Now, however, when the higher grade of Lieutenant-General has been created, Gen. HALLECK could not retain his command as General-in-Chief, because the act does not allow him to command an officer of higher grade, like Lieut.-Gen. GRANT. Gen. HALLECK was the first to point out this difficulty after the higher grade had been conferred on his friend, not, indeed, in the spirit of dissatisfaction, but as a matter of law. HALLECK rejoiced in GRANT'S promotion, no one probably more than he did, and at the time that he showed the impossibility of his remaining General-in-Chief, expressed his willingness to serve in any other position which the Government might think proper to assign to him. He did not throw up his appointment in dudgeon. Had Gen. HALLECK lived in those times when popular wit or favor bestowed characteristic titles on public men, he might not inaptly have been called the "Unambitious." There is perhaps no officer in the army that wears his breast buttons parted into threes, who is less ambitious, and more ready to serve in any capacity, so that he can serve his country.

THE POLICE BILL.—Yesterday, Gov. SEYMOUR, as we learn from our Albany dispatches, signed the Police Bill, which has been in contention for some time past, and which makes Messrs. ACTON, BOSWORTH, BERGEN and MCMURRAY Police Commissioners. We have, from the outset, advocated this bill as the correct and only compromise between the different parties, and as the only one which would be satisfactory to the public. The Governor in signing it has yielded to what has latterly been unequivocally indicated as the popular wish, and has done well and wisely. The first three of the Commissioners named were sworn in by the Secretary of State yesterday; Mr. MCMURRAY was unable to be present at that time. Thus ends, we hope, the embarrassments which have threatened to impair, if not to destroy, the value of a force which so largely owes its efficiency to Mr. ACTON, who will now be preserved to it, with associates whose intelligence, public spirit and capacity no one is disposed to impugn, and whose recognition as Commissioners will give general satisfaction.

Fine Arts.

Mr. KENSETT'S new picture, called "An October Afternoon on Lake George," was exhibited at GOUPIL'S gallery, No. 772 Broadway, last evening, to a party of invited guests. It will be put on public exhibition to-day under the auspices of the Sanitary Commission, and will handsomely repay an examination. We quote, with modifications which would not have been out of place in the original, the following description of the work from a handbill issued by the exhibitors, simply remarking that a night light destroys many of the special excellencies referred to, and that it will therefore be judicious to see the picture by daylight.

"The point of view selected by Mr. KENSETT, in the treatment of his picture of 'Lake George,' is one perhaps not familiar to every tourist; but it serves to express the essential character of the lake scenery, and meets the requirements of a fine artistic sense without any violation of the salient forms of the subject matter.

The ground from which the studies were made is about three miles below Bolton, and from its elevation the spectator commands a most extended view of the lake as famous for its beauty as that of Como—our poets and painters have united to celebrate its beauty.

The subject is presented to us bathed in the most delicious and dreamy atmosphere of an October afternoon. The autumnal foliage, the tender light in the sky, the expanse of water leading the eye off into the infinite deeps of air, and the sober richness of the monarch oaks, combine to touch the mind with pleasure, and to impress it on our memory.,,

Amusements.

WALLACK'S THEATRE.—To-night Miss Madeline HENRIQUES, a charming member of Mr. WALLACK'S admirable company, and one whose career has been watched with almost affectionate interest by the public, takes her annual benefit. The play selected for the occasion is "Wild Oats," cast to the best strength of the establishment.

NIBLO'S SALOON.—Mr. GOTTSCHALK will give another entertainment at this establishment to-night, assisted by Madame CHARLOTTE VARIAN, Mrs. MOTTE and Signor PATTI. Mr. AUGUSTUS WATERS will recite, between the parts, POE'S poem of the Bells.

THE CONCERT.—Messrs. MULLENHAUER, assisted by eminent artists, will give a Grand Concert at Irving Hall, in this City, on the 19th of next month, for the benefit of the cause of Polish nationality and freedom. It will be under the patronage of many of the most eminent ladies of New-York. The particulars will be duly announced.

IMPORTANT FROM ALBANY.

The Metropolitan Police Bill Signed by the Governor—Messrs. Acton, Bergen, Bosworth and McMurray the Commissioners.

ALBANY, Tuesday, March 15.

The Governor signed the Metropolitan Police Bill to-day.

The Harlem Broadway Railroad Bill was argued at length before the Senate Railroad Committee this evening. HORACE T. CLARKE, for the bill, contended that a railroad in Broadway was an imperious public necessity, and that the terms on which the Harlem Railroad Company would build it would yield revenue to the City.

Judge DEAN spoke against that part of the route through Madison-avenue. Judge HILTON opposed the bill as tending to ruin Broadway, declaring that it was opposed by all the best citizens of New-York, and stating that the bill was deceptive, and would never yield any revenue to New-York.

The argument is now closed.

CHARLES S. SPENCER was heard before the Committee on Cities against the bill to organize a Commission for the removal of the Heads of Departments of New-York.

The Cross-Town Railroads in New-York—The Pressure For and Against—Progress of Legislation.

Correspondence of the New-York Times.

ALBANY, Tuesday, March 15.

The Cross-town Railroad Bill came up in order for consideration this morning, in the Assembly. Members from New-York represented that the people of that City living along the proposed route, were many of them alarmed lest their rights should be invaded by granting a railroad charter for the benefit of individuals or a corporation, and to the prejudice of the public. Mr. BENEDICT expressed the hope that the House would use great care in legislating upon the subject of railroads in New-York City. This hope, it may be safely assumed, is very likely to be realized. The Legislature has been approached in so many ways in regard to these railroads, that a somewhat general feeling prevails that they are a nuisance to the Legislature; and whether they are not also a nuisance to the people, whom they were constructed to accommodate, is becoming more a question here every day. There is every reason to suppose that there will be care used in enacting any law that will increase the number or power of railroad corporations in the City of New-York. Hearings of the representatives of Broadway and other railroad projects in the city, are set down for this afternoon by the Committee. I notice some of the parties here ready for the fray. The hearings of the Committee, like action in the Senate and Assembly upon these railroad bills, proceed very slowly. Several adjournments of the hearing is in every case probable, and one or two may be deemed inevitable. Meanwhile, it would be very strange if the outside machinery that assumes to direct legislation in these local matters was idle.

The two Houses are getting through with a very large amount of local bills of minor importance, and private bills. There is a desire expressed to avoid, if possible, the discredit of a grinding committee to dispose of such bills. If the people of the State can be satisfied with giving the Legislature a reasonable amount of work to do, this discredit may be avoided; but if new bills continue to come in at the rate they have done, it will be no fault of the Legislature if extra measures are adopted to dispose of them.

The Senate debated this morning the constitutionality of giving to the Chief Judge of the Court of Appeals the nomination of certain attendants upon said court, the nomination to be approved by the Secretary of State. The Constitutional objection to giving this power, virtually, that of appointment, to the Presiding Judge in the Court of Appeals, was strenuously urged by Senator SHAFER. Senator ANGEL desired the passage of a bill that would gain the object sought in this bill.

The fact that the Judge of Albany County had not shown sufficient courtesy toward the Judges of the Court of Appeals to even consult them in making these appointments, had rendered such a law desirable. He and Senator HAVENS suggested the propriety of giving the appointment entirely to the Secretary of State. The discussion gradually assumed a political character, and the Metropolitan Police Bill and other party matter were dragged into the debate, and a sharp and very amusing party "scrimmage" ensued. The bill was finally recommitted to the Judiciary Committee.

Morton's Gold Pens are now sold at the same prices as before the commencement of the war; this is entirely owing to the Manufacturer's improvements in machinery, his present large Retail Business and Cash-in-Advance System; for, until he commenced advertising, his business was done on Credit and *strictly with the Trade.*

The Morton Gold Pens are the only ones sold at old prices, as the makers of all other gold pens charge the Premium on the Gold, Government Tax, &c.; but Morton has in no case changed his prices, Wholesale or Retail.

Of the great numbers sent by mail to all parts of the world during the past few years, not one in a thousand has failed to reach its destination in safety; showing that the Morton Gold Pen can be obtained by any one, in every part of the world, at the same price, postage only excepted.

Reader, you can have an enduring, always ready, and reliable Gold Pen, exactly adapted to your hand and style of writing, which will do your writing vastly cheaper than Steel Pens; and at the present almost universal High-Pressure Price of everything, you can have a Morton Gold Pen cheaper, in proportion to the labor spent upon it and material used, than any other Gold Pen in the World. DEAFNESS AND CATARRH CURED.

No. 420 SIXTH-AV., NEW-YORK, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.

READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. *I hear perfectly.* It is now over a month since the operation, and I continue to feel as well as ever.
WILLIAM LIDDLE,

No. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.
JOHN TAYLOR.

NEW-YORK, July 19, 1863.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing.* Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. I tis with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

HEALTH OF AMERICAN WOMEN.
Office of The Graefenberg Company, No. 139 William-st., (near Fulton,) New-York.

Under the above heading, Dr. J. F. Bridge (Secretary and Resident Physician of the Graefenberg Company) addressed a series of letters, some years ago, to the medical profession and to the public, which attracted great attention to the Graefenberg Company's Uterine Catholicon, (Marshall's.) The alarming extent, in every age and condition of woman's life, of the complaints, commonly known as "female weakness," together with the constitutional symptoms, such as nervousness, deranged digestion, headache, &c., and the fact that there was no remedy for them until the discovery of this Catholicon, induced extensive trial of the remedy.

Fortunately for suffering woman, the expectations induced by scientific analysis were more than fulfilled upon trial. Ninety-five out of every hundred cases have been entirely cured, and the few cases where great age or absolute physical injury to vital organs have prevented a complete cure, the symptoms have been much relieved.

CERTIFICATES.

I have practiced medicine in this village some ten years. During the entire time I have observed the action of the Graefenberg Company's Uterine Catholicon (Marshall's,) in cases of Female Weakness. I take great pleasure in stating that I have known many complete cures effected by taking two or three bottles, and have never known an instance where it did not give complete satisfaction. S. RAMSEY, M. D.
RENSSELAER, Wis., Dec. 23, 1863.

My daughter, aged 17, had been ailing about three years, and had become so debilitated that she could hardly go across the house. She is now well, and it is the Graefenberg Uterine Catholicon that has done it. I can recommend it as the best medicine in the world for what it is recommended. LEWIS RUSSEL.
BERLIN FALLS, N. H., July 15, 1863.

☞ From the age of 15 years upward the Catholicon will be found certain to relieve the common troubles of all women. It is confidently offered as the only certain remedy known.

☞ The above Catholicon was first offered to the world by the Graefenberg Company, and called "Marshall's," in connection with the name of Dr. Theo. Pomeroy, of Utica, (now deceased,) as its original discoverer. The proprietors of the Graefenberg Company have from him and his estate the sole right to issue it.

BRANDRETH'S PILLS are composed of the simplest vegetables. Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs; but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases has a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Penn., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States Government. We say to the afflicted that Dr. WISHART'S Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGESTIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURIFICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation and restoring a healthful tendency. Let this twofold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed to resort to the means of cure.

PINE TREE TAR CORDIAL

is a great remedy for chronic croup and diphtheria, which is sending thousands and thousands of children to a premature grave. It can be cured by Dr. Wishart's Pine Tree Tar Cordial.

Out of ten thousand cases where it has been tried in the past two years, it has never missed a case where it was taken in time. All families should have it on hand, as it gives instant relief in croup and diphtheria.

ASTHMA AND COUGH.
ASTHMA AND COUGH.
ASTHMA AND COUGH.
ASTHMA AND COUGH.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and whooping cough. It often cures whooping before it runs half its course, as it acts at once upon the phlegm and mucus, and expels them from the throat, and the sufferer is relieved. In case of asthma use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease.

Beware counterfeits. The genuine has the name of the proprietor and a pine tree blown in the bottle. All others are spurious imitations. Price, $1 per bottle, or $8 per dozen.

Sold by all respectable druggists and storekeepers.

CHICAGO AND GREAT EASTERN
RAILWAY COMPANY,
FIRST MORTGAGE BONDS,
FOR $2,000,000.

SUBSCRIPTION BOOKS OPENED WITH
Messrs. SCHUCHARDT & GEBHARD, Bankers,
No. 21 Nassau-st., New-York.

The Chicago and Great Eastern Railway Company now offer for sale one million one hundred thousand dollars of their first mortgage bonds, in sums of one thousand dollars each, maturing in thirty years, bearing interest at the rate of Seven per cent. per annum, payable in the City of New-York, on the first days of April and October, in each year.

These bonds are secured by a first and only Mortgage on the property, income and franchises of the Railway Company, executed to Frederick Schuchardt and Henry Morgan, of the City of New-York, Trustees.

The remaining nine hundred thousand dollars of the Bonds are set apart and remain in the hands of the said Trustees, for the purpose of being exchanged for the indebtedness of the Chicago and Cincinnati Railroad Company, running from La Crosse to Logansport; this effected, the $2,000,000 will form a First and only Mortgage on a line of road 110 miles in length, extending from Chicago to Logansport, where it connects with the Cincinnati and Chicago Air-line Railroad, forming the shortest line by 40 miles, between Chicago and Cincinnati, and by 36 miles the shortest line between Louisville and Chicago.

It will also open, in connection with roads now in operation, entirely new and very direct lines from Chicago to New-York, Philadelphia, Baltimore, and all Eastern cities. The distance between Chicago and New-York by this route being shorter than by either of the existing lines via Dunkirk or Buffalo.

The road is now under contract, and the most strenuous efforts are being made to have it open for traffic during the Summer of 1864.

The interest on the Bonds maturing during the progress of the work has been provided for, and will remain on deposit with the Bankers of the Company, Messrs SCHUCHARDT & GEBHARD, No. 21 Nassau-st., to whom the Company refer for further particulars, and where subscription books for this loan have been opened.

GOLD MINING IN IDAHO.—A RARE chance for five men, with some money, to make a fortune. A joint stock company has been formed in this City to proceed to Idaho to prospect for and work the best mines in that territory. Some of the company are the best geologists, chemists and miners in the country. A patent, recently issued, by which all the gold is separated in a cheap and rapid way, and in a manner never before known, gives the company a new and wonderful monopoly. The shares are limited, and every shareholder proposes to go himself. The company will start this Spring, and go with mule teams, taking with them stamps, or alligator jaws, pulverizing mills, desulphurizers and new chemical amalgamators (well tested,) by which from $50 to $1,000 per day in gold can be taken out. The machinery is already partly finished. A few shares remain unsubscribed, and any person with from $1,000 to $5,000, who has little talk and much earnestness, can have a chance in this enterprise, if applied for immediately, at headquarters, No. 130 East 26th-st., near 3d-av. The parties are not irresponsible speculators, but mean and will do what they say. Call from 12 to 4 o'clock.

TO CAPITALISTS.—THE SUBSCRIBER BEing desirous of retiring from business, hereby offers for sale the establishment known as the Continental Iron Works, located at Green Point, Brooklyn, consisting of all the buildings, machinery, tools and apparatus necessary for prosecuting the business of iron ship building and general iron work, upon the most extensive scale, as the number and size of the iron-clad batteries, which have been constructed at this establishment within the past three years, fully attests. The real estate upon which said establishment is located, can be purchased or leased for a series of years.

This is a rare opportunity for capitalists desiring to embark in a lucrative and rapidly increasing business, to purchase an establishment in working condition, which is unequaled in this country in its adaptation and first-class advantages for the construction and equipment of iron vessels of the largest dimensions, either for the Government or merchant service.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. DR. WARD, from the hospitals of London, Paris, and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health call: it will take but little money and time to restore you. Upon have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st. Call, send, or write.

SPEEDY RELIEF AND SURE CURE GUARANTEED.—Therefore, let no false delicacy prevent your immediate application to Dr. POWERS. Dr. POWERS, successfully consulted with Dr. WARD No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. TUESDAY, March 15—P. M.

The transactions in Gold ran up the price this forenoon to 162¼@163 ℔ cent. They availed of the questionable tone of the Washington dispatches in the morning papers in regard to the fate of the joint resolution in the House of Representatives. At a later hour the advance was lost, so that at 4 o'clock the price was about the same as on Monday afternoon. The Customs demand for Gold to-day is $212,000.

There is a fair degree of activity in the Money Market, at 6@7 ℔ cent. to Stock Exchange borrowers, and 5 ℔ cent on prime Merchant paper. The supply is liberal on these terms.

The Stock Exchange is again active, and prices through the day on the Railway speculation generally firm. There was a large amount of realizations on Erie Common Stock at 124 ℔ cent., and 15,000 or 20,000 shares altogether were taken at this figure, and a small fraction below it, including the Street transactions. The advance in Hudson River is 3@5 ℔ cent., and on Cleveland and Pittsburgh 2@3 ℔ cent. on yesterday's late sales. Further heavy operations took place in Michigan Southern at 110 ℔ cent., and the upward movement in Fort Wayne and Chicago was strongly supported by orders to buy at 128@128¼ ℔ cent. In the Second Board 129 ℔ cent. was paid for 100 shares. The Coal fancies were higher than on Monday, and Canton and Pacific Mail 1@2 ℔ cent. up. The Government Stocks were ¼ ℔ cent. higher on the 5-20s.

At 4 o'clock the following prices were made, in comparison with Monday, same hour, the General Market being weaker than at the Second Board, by 1@2 ℔ cent. on the prominent speculatives. Gold was 160½, but subsequently rallied to yesterday's quotation, 161¼ ℔ cent.

And the following for the Railway mortgages. We notice that the Michigan Southern Seconds are quoted below the price of the Common Stock as the bidding price. It is fair to presume, however, that they cannot be bought at 107 while the Stock is 110 ℔ cent., as the honest management of the concern, following up their own precedent in August last, would scarcely permit the opportunity to pass of getting rid of the remainder of this incumbrance by buying up the Bonds, as in August, with the proceeds of a new issue of the Common Shares, dollar for dollar. It is said, to be sure, that the present *Bull* movement in the Stock is a turn of their own, and to their *individual* profit; but we have no idea that a consideration of this selfish nature would influence such wealthy and conscientious Railway Managers as HENRY KEEP, LE GRAND LOCKWOOD and their colleagues to neglect their duties as *Trustees*. They were too wide awake to the opportunity of turning their Bonds into Stock when the latter reached 110 ℔ cent. some six months ago:

A new firm on the Stock Exchange is constituted to-day, under the style of Messrs. JEROME, RIGGS & Co., of No. 46 Exchange-place. The partners are LEONARD W. JEROME, ELISHA RIGGS, W. A. SINGERLAND and GEORGE W. M'LEAN, the last a member of the regular Stock Exchange Board. The senior partners, Messrs. JEROME and RIGGS, are understood to contribute a large ready-cash capital to the concern.

The telegraph from the Portland steamer this morning announces the death at Liverpool on the 3d inst. of Sir WILLIAM BROWN, the senior of the old and eminent banking firms of BROWN, SHIPLEY & Co., of Liverpool, and BROWN, BROTHERS & Co., of this City, at the ripe age of 81 years. Sir WILLIAM was an able and successful merchant; for many years a useful Member of Parliament for Lancashire, and always a staunch and influential friend in England of the United States and their Government. He was a native of the North of Ireland, born before the emigration of his father, ALEXANDER BROWN, of Baltimore, to this country. The junior brothers were, we believe, all born on this side, and of these, Mr. JAMES BROWN, of New-York, and Mr. JOHN A. BROWN, of Philadelphia, survive him. His grandson, and the grandson also on the mother's side, of Mr. JAMES BROWN, of this City, succeeds to the title and landed estates of the deceased Baronet. The value of the whole estate which he has left to his heirs is probably not less than seven millions sterling money, or $35,000,000.

STARIN & Co., in their last report for the WEEKLY TIMES, say: "The receipts of butter have been light during the past week, and have been confined principally to fair to good grades of Western. Fine State Butter is unusually scarce, and in active demand. Very extreme prices for fine State butter must rule until new Butter makes its appearance in sufficient quantities to impress the market—which cannot be looked for until the middle of April. The market is well supplied with common to fair Western Butter, which, in the scarcity of State Butter, is in good request for the better grades. The export trade is closed for the season, and it may be considered the most successful for all parties engaged in Butter that has yet occurred. We estimate the export of Butter from this port from Jan. 1 to this date as equal to 48,893 firkins, the bulk of which has been taken for England. We are indebted to Messrs. J. & F. WEBB, an eminent produce house of London, for the following statistics of American Butter, under date of Feb. 20, last year: 'Since Jan. 1, we have received 225,000 packages more into London, and 15,000 more into Liverpool than in the same period of 1863, and the stocks in both places together are now 30,000 casks less than at this season last year.' This shows the growing consumption of the article, and the importance of carefully cultivating the export trade. The crop of Butter of the past year has undoubtedly been a full average in both quality and quantity, and in order to give the short crop theory its quietus, we will state that the receipts at this point since Jan. 1, have been over 6,000 packages more than during the same period of last year." We now quote Butter at 37c.@46c. for State, and 28c.@35c. for Western ℔ lb.

Cheese is in fair demand at 15c.@18c. ℔ lb. Stocks of Cheese are very light, and although receipts have been fair during the past week the demand has been greater and the amount on hand is considerably diminished. The receipts of Cheese at this point since Jan. 1, are over 11,000 boxes more than during the same period of last year, while the export of Cheese has been about 2,000,000 lbs. greater since Jan. 1, than during the same period of 1863. The average prices of the season are unprecedented in this market, while the foreign markets have fully sustained our own, and a successful year's trade has been the result to dairymen, produce receivers and shippers.

TALLOW—Sales since our last 60,000 lbs., at 12½c.@12¾c., and 23,000 lbs. Grease at 11¼c. ℔ lb. The week's business in this line Messrs. KNIGHT & SONS review thus: "The market for this article has fluctuated considerably during the week. On Monday the demand was very brisk for all kinds, and prime brands were disposed of at 12¾, and even very choice brought 12⅞. The demand continued very brisk up to Friday, when, owing to the decline in gold, the prime became nominal, and buyers rather held off. Since Saturday the transactions have been light. During Tuesday and Wednesday we note some pretty large sales of No. 2 and Prime, the former at 11¾c. and the latter at 12¾c. The arrivals of Western have been more liberal, and the amount of State and Eastern have been light. We note sales of Tallow Grease at 11⅞c. The demand for Soap Grease of all kinds has been active, and, owing to the scarcity of the article, prices have been high, as seen by our quotations. The stock of white and yellow Grease has been almost exhausted, which fact has compelled soap-makers to buy No. 2 Tallow instead, to supply the immediate wants. To-day and yesterday there was out little doing, and prices for all kinds of Tallow Grease were flat, but we note no abatement in price. The extreme high price of cattle and the small yield of those slaughtered, tend to lessen the arrivals and enhance the value of Tallow for some months to come. At the close, to-day, the market was firm, and prices unchanged since yesterday, viz.: Prime, in hhds., 12¾c.; bbl., 12¾c. We quote sales of Butchers' Association, 13¼c. The stock of Tallow here and in the Western cities is very small compared with the last four or five years. Price this day, 1858, 13c.; 1859, 10¾c.; 1860, 10¾c.; 1861, 9¾c.; 1862, 8¾c.; 1863, 13c."
